## SKILLS

---

Java, Springboot, MVC, Git, HTML, CSS, Bootstrap, Javascript, React, Redux, MySql, Postgres, Node.js, Express, Sequelize

## EXPERIENCE

---

- (SoyHenry) NODE/REACT DEVELOPER

I built a robust backend in Node.js with connectivity to a PostgreSQL database using Express. I expanded my skills by creating a dynamic frontend in React with Redux, and furthermore, I implemented advanced features such as user authentication and MercadoLibre payment processing. I learned to manage cloud storage for images.

- (Egg) JAVA DEVELOPER

I built a robust Java backend connected to a MySQL database using Spring Boot. I gained skills in comprehensive web development by incorporating Thymeleaf for frontend creation. I employed user authentication and query optimization.
